## SPECIAL VENIRE ORDERED FOR BEXLEY-OSTEEN CASE

**This Case Set for Thursday Morning---Several Civil Cases Disposed of---Grand Jury Reports.**

The second day of the spring term of the Circuit Court for Alachua county convened at 9 o'clock Tuesday morning, His Honor Judge J. T. Wills presiding.

Just at the convening of the court Wm. A. Bexley and Truby Osteen, charged with murder of W. H. Moreland, and D. M. Davidson and J. M. Kelley, who must face the charge of murder in the case of W. C. Sellars, were brought into court by a deputy, and took position on the prisoners' bench at the eastern section of the bar rail. The defendants were greeted by a number of friends upon entering, and seemed in a most cheerful mood.

Mrs. Emma Edmondson, daughter of Mr. Davidson, was present in the court room, and, advancing to her father, who was seated, greeted him affectionately, placing her arm about his waist, where she remained for several moments in conversation. The scene was rather impressive to those who witnessed it, as the devotion between the two was plainly evident. After a few moments Mrs. Edmondson bade her father good-bye and left the court room, assuring him of her sincerest loyalty, and promising to return in a short while. Mrs. Edmondson is an attractive little woman, and, attired in a neat costume of solid black, made a pretty picture as she fondly greeted her father.

Accompanying the white prisoners was Jim London, a young mulatto, against whom the grand jury returned an indictment of murder in the first degree on Monday afternoon. London is charged with the murder of Mitchell Smith, another negro, at Clark, on the night of Saturday, April 24th, being arrested a short time afterwards and placed in jail here. Commanding him to rise, the court stated the indictment, murder in the first degree. Judge Wills asked the prisoner if he had secured counsel to defend him, when London replied that he had left his fate in the hands of Carter & Layton.

The clerk was instructed to draw

from the jury box all names remaining in said box, and issue to the sheriff a special venire, returnable Thursday morning at 9 o'clock, said names to be used in securing a panel in the case of the State vs. Bexley and Osteen.

### Civil Cases.

During the forenoon the trial docket was taken up, and the following civil cases disposed of:

C. A. Steen & Co. vs. E. K. Anderson, assumpsit, continued.

Josephine M. Abbott vs. Phifer Bros., damages; continued.

H. D. Wood vs. Atlantic Coast Line Railroad Co., damages; dismissed on motion of plaintiff.

A. W. Taylor vs. Gainesville and Gulf Railroad, assumpsit; continued.

F. D. Warner, manager, for use of W. A. Strickland, vs. Atlantic Coast Line Railroad Co., assumpsit, damages. Judge disqualified.

S. J. Thomas Co. vs. C. E. and W. N. Dunham, assumpsit, damages; continued.

Frank Schofield vs. F. H. Beeman, action for covenant, damages; continued.

Frank Schofield vs. F. H. Beeman, assumpsit, damages; continued.

S. B. Hubbard Co. vs. C. E. and W. N. Dunham, assumpsit, damages; continued.

Coggins & Owens vs. Gainesville Cycle Co., damage; continued.

Whereupon court adjourned until 2:30 o'clock p. m.

### Afternoon Session.

The court convened in the afternoon, but the only business of importance to come before the body was the report of the grand jury, and the bringing of two prisoners into court.

The grand jury came into open court and presented the following report:

State vs. John Hurd, receiving stolen goods, a true bill.

State vs. Ollitha and Rosa Lishore, grand larceny, a true bill.

State vs. William Sparks, rape, a true bill.

State vs. L. J. Knight, criminal

## COLUMBIA COUNTY WILL REMAIN DRY

PROHIBITIONISTS WIN IN SPIRITED CONTEST MONDAY.

The Victory Celebrated Monday Night by a Parade of Men, Women and Children.

LAKE CITY, May 4.—One of the most exciting elections ever held in this county ended last night when the polls closed on the "wet" and "dry" contest, and Columbia remains dry by a majority of about 135.

The vote in Lake City gave the dries 233, wets 154; Fort White, dries 74, wets 6; Columbia City, dries 38, wets 14; Benton, dries 7, wets 10; Bells Mill, dries 23, wets 43; Watertown, dries 7, wets 7; Lulu gave the dries a majority of 9.

The contest was hard-fought, and in every precinct in Lake City the women and children remained at the polls all day in the rain and worked for temperance with songs and pleadings.

Last night the Lake City band headed a parade of about 500 men, women and children, who celebrated the dry victory.

trespass and grand larceny, a true bill.

State vs. Pate Sims, breaking and entering a railroad car, a true bill.

State vs. David Walker, assault with intent to murder, a true bill.

Knight and Sims are white.

In the case of the State vs. J. W. Brown, robbery, the grand jury failed to return an indictment, and the defendant was discharged.

Will Sparks, against whom an indictment was returned for rape, was brought into court, and when asked if he had employed an attorney to defend him, replied in the negative. When asked if he had the means to employ a lawyer, he also answered in the negative, and Attorney T. B. Ellis, Jr., was appointed by the court to defend the prisoner.

David Walker, colored, was arraigned upon a charge of assault with intent to murder one Aaron Williams, to which charge he pleaded not guilty. Walker will be defended by Attorney E. H. Hille.

Court adjourned until 9 o'clock Wednesday morning.

### An Unusual Incident.

A rather impressive and unusual incident occurred during Tuesday, a proceeding which at once appealed to the admiration of those who witnessed it.

During the day His Honor Judge Wills was confronted by a colored woman who informed that dignitary that she had come to "report." Estelle Knowles, at the fall term of court, had been indicted by the grand jury upon a charge of selling whiskey in a dry county. Under certain existing conditions, when the defendant was arraigned, she enlisted the sympathy of the court, and was paroled with an admonition to "go and sin no more," but was ordered to report at the next regular term.

Faithful to her trust, the woman presented herself before His Honor Tuesday, which explained the statement that she had come to "report" for further consideration and indulgence before the bar of justice which had been so lenient with her.

Judge Wills admitted that he had about forgotten the event of the fall term, and was surprised at the appearance of the woman, whom he did not expect to see again, except possibly at some future arraignment upon a similar charge.

"You have been faithful to your promise, Estelle," inquired the Judge.

"I have, your honor," was the ready and happy response. "I thank you

## HOUSE RESTRICTS SPEED OF AUTOS IN FLORIDA

**Coca-Cola Had Close Call---Bankers Given Hearing. Session of Senate Was Short.**

TALLAHASSEE, May 4.—After a long discussion the House yesterday passed the Dupont bill restricting the speed of automobiles to twenty miles an hour in the State, and requiring chauffeurs to help ladies or children to get their teams by their cars when the horses become frightened. The bill originally set the maximum speed at seven miles, but it was amended to twenty and then passed after much discussion.

Coco-cola came near getting into the anti-narcotic bill in the afternoon. The anti-narcotic bill was under consideration when Representative Stokes offered an amendment, including coco-cola in its provisions. The amendment was being argued when adjournment was taken.

The House passed to the third reading the bill prohibiting the intermingling of the races or sexes among prisoners in the county jails. The bill was unfavorably reported because of the expense it was stated would have to be incurred by counties in changing present jails to conform with the law.

Several members took the stand, however, that the principle was of greater importance than the expense which some counties might be put to and passed the bill on to third reading.

The House yesterday began a grinding routine. A resolution by Representative Knight of Bradford was adopted by which the House will meet daily from 9 o'clock until noon, and from 2 o'clock until 5 o'clock in the afternoon.

The joint House and Senate committees on banking spent the afternoon listening to arguments from members of the committee from the State Bankers' Association against the proposed bills relative to State guaranty of bank deposits.

### Bills on Second Reading.

House Bill No. 121, by Mr. King of Orange—To provide for a road tax for cities and towns imposed by the votes of each city or town. Third reading.

House Bill No. 3, by Mr. Carter of Alachua—To protect the fishes of Alachua county. Rules waived and put on final reading. Passed.

House Bill No. 6, by Mr. Carter of Alachua—To provide for the investment by the Board of Education of the principal of State school fund in certain obligations and mode of said obligations. Passed over informally.

House Bill No. 27, by Mr. Pattishall of Hillsborough—Providing for the confirmation by the judge granting the order to sell real estate belonging to infants. To third reading.

House Bill No. 30, by Mr. Epperson of Levy—Concerning the killing of

stock by railroads. Indefinitely postponed unanimously.

House Bill No. 35, by Mr. Davis of Madison—Prescribing the manner of conditional sale of personal property where immediate delivery and continued possession are given, invalid as against subsequent purchasers, pledges, mortgages and other lien holders in good faith and without notice, unless recorded, and prescribing the method for recording the same.

Mr. Chase spoke against the measure.

Mr. Stokes spoke for it. Adjourned during debate.

### Afternoon Session.

A resolution was introduced by Mr. Calkins of Nassau, and adopted, that the chair appoint a committee of three to meet Senator D. H. Money.

Senator Beard was made honorary member of the committee.

The Speaker appointed Calkins, Cox and Thornton on the committee.

The Beard disfranchisement measure was then made a special order for Saturday morning at 10 o'clock.

Mr. Trammell of Calhoun introduced House Bill No. 481, prescribing punishment for certain misdemeanor, and under waiver of the rules, the bill was placed on second and third reading and passed.

### To third reading:

Senate Bill No. 16, Beard, regulating osteopaths and osteopathy, to third reading.

House Bill No. 113, Neeley of Leon, creating office of pardon attorney. To third reading.

No. 115, Wells of Leon, requiring that public notice be given when any of the public lands of State are to be sold in large tracts. To third reading.

No. 117, Light of Marion, relating to shooting of alligators and limps on Ocklawaha river. Passed informally.

No. 152, Cox of Polk, to prohibit the sale or giving away of opium, morphine, cocaine, or certain other narcotics. To third reading.

### THE SENATE.

A quiet session was held by the Senate Monday morning and comparatively few bills were introduced. The session was a short one. Much of the time was taken up in the discussion of a bill allowing Judge J. B. Wall of the Sixth Judicial Circuit clerical aid. The bill was passed to third reading, but was stoutly opposed.

An important measure introduced was one by Senator McMullen intended to restrict the shipment of alcoholic liquors into dry towns, cities,

## Took Half-Gallon From Each Barrel of Turpentine

SAVANNAH, Ga., May 4.—In the trial of the alleged naval stores trust case in the United States court yesterday several witnesses were examined and the fact was brought out that both the Government and the defendants have secret agents employed in the gathering of evidence.

D. H. McMullen of Jacksonville, vice-president of the Consolidated Naval Stores Company, was asked about the employment of certain persons by the company.

J. E. Martin of Jacksonville, formerly with the Patterson Export Company, said that company had been forced out of business. He then told of his employment by the Government as a special agent in this case and of visits to Germany and to New Orleans to gather evidence. His examination was very rigid by the defense. It was apparent from the questions asked that the defense had kept a minute watch on Mr. Martin for several months past.

During the day's session it was stated that the prosecution is near

ing the end of its case and will soon announce that it rests. This came out in the request for only one session a day, which was not yet granted. After the State closes it is expected the defense will ask a verdict of dismissal be rendered.

Considerable interest attended Mr. Martin's statement that he was given a "leg" up over a high fence in Hamburg in order that he might view a lot of naval stores in an enclosure.

The day's cross-examinations were directed toward backing up the assertion of Judge S. B. Adams for the defense that instead of the American Naval Stores Company entering into a conspiracy, it seemed that disgruntled competitors were in a conspiracy against their successful rival.

Interest attached to the examination of Dan Wilson, a negro employee of the National Transportation and Terminal Company in the Jacksonville yards, that a half gallon of turpentine was taken out of all the barrels of turpentine received in the yards while he was there.

## Ex-President Roosevelt's Record as Lion-Killer

NAIROBI, BRITISH EAST AFRICA, May 4. Theodore Roosevelt has bagged one more lion at Wami, near Kapiti. This gives him a total of three lions and one lioness on the present expedition. Kermit Roosevelt succeeded in bringing down a cheetah. The hunting was exciting and both marksmen did excellent work.

It is rumored in native sources, but

the report lacks confirmation, that the Roosevelt party will arrive at Nairobi May 15, before proceeding to Sotik.

The lion killed by Mr. Roosevelt was brought down at close range. His quick work with the rifle saved the lives of some of his mounted escort, who had narrow escapes from the infuriated beast. The accuracy of Mr. Roosevelt's marksmanship is a matter of astonishment.

## NEWS NOTES FROM NATIONAL CAPITAL

AN ABLE SPEECH BY SENATOR  
BAILEY ON INCOME TAX.

Scandal in Census Bureau Hinted at.  
Mrs. Taft Often Seen Driving  
Runabout—New Stamp Issue.

WASHINGTON, D. C., May 4.—The speech of Senator Bailey on an income tax, one of the ablest which has been delivered on the floor of the Senate for many a day, and took two days to deliver, was highly pleasing to Democrats, who regard it as an unanswerable argument in defense of the right of Congress to levy an income tax. Mr. Bailey quoted from court opinions and other authorities to substantiate his contention respecting the constitutionality of such a tax, and said: "That this is inquisitorial is true, but not more so than any other tax. To compel me to tell the source of my income, as done in the State in which I live, is as inquisitorial as to compel me to tell the amount of my income." As to the plea that such a tax would make us a nation of liars Mr. Bailey said: "I will not insult the American people by repeating that charge, but I will repel it as an unwarranted reflection upon our people. I do not think a self-respecting American citizen will lie to escape the payment of a tax, and if I should find a man who would commit perjury to escape taxation I would favor disfranchising him."

A scandal in the Census Bureau is more than hinted at, a fact to which the Democrats in Congress are just awakening. Director North is charged with insubordination and it is a question in administration circles whether he has the capacity to administer the affairs of the census office. The opinion obtains that Mr. North's resignation will be asked within the next few days. Mr. North himself declines to discuss the matter entirely, except to say that he has not intended to resign.

At the State Department preparations are in progress for a complete readjustment of our trade relations with the nations of the world, to follow the enactment of the new tariff law. In view of the introduction of the maximum-minimum policy into our tariff law, many treaties and arrangements covering trade relations will of necessity be abrogated and new ones must be negotiated, and to accomplish this amicably and without involving the United States in commercial wars with her rivals is a herculean task which will call for all the ability and ingenuity of our eminently able and tactful Secretary of State. The President and the leaders in Congress have every confidence in the successful outcome of these negotiations in the hands of Secretary Knox.

Mrs. Taft is now seen on the streets of Washington and its suburbs driving her own electric runabout. Mrs. Taft is as fond of motoring as is the President and desired to run her own car, but the President objected of her driving and of the large gasoline touring cars, with which the former stables of the White House are equipped, and a compromise was reached in the electric runabout.

The postmasters throughout the country have received notice from the Third Assistant Postmaster-General that the new issue postage stamps which the Postoffice Department is preparing for the Seattle exposition will be put on sale about June 1. The citizens of Seattle made no inconsiderable comment on the original design of the stamp, in consequence of which the picture of the polar bear clinging to an iceberg has been changed and in its stead appears the portrait of William H. Seward, who, as Secretary of State, conducted the negotiations for the purchase of Alaska from Russia.

Col. R. M. Johnson, veteran publisher of The Houston Post and prominent as a Democratic politician in Texas, was in Washington last week and in discussing the prohibition wave which is sweeping the country, declared that the division of Texas into two States is a probable outcome of the agitation of the liquor question, now in progress in the State. Col. Johnson declared the southern portion of the State is to be strongly "anti," while the north-

that I have reformed, and have not sold or attempted to sell a drop of whiskey since you put me on parole. I could not go back on my promise, after the court had been so lenient with me."

"Well, the court will try you again. You may go, provided you will renew your promise to be a good woman and continue to refrain from selling whiskey against the law of your country."

Estelle promised, and left the presence of those about her visibly affected, with a heart full of gratitude, declaring that "the goodness of the court" would reform her if everything else failed.

#### Whooping Cough.

This is more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough, and always with the best results. Delbert McKelg of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot recommend it too highly." For sale by all druggists.

#### Mr. Crom Here.

Geo. C. Crom, the popular and accommodating postmaster of Ocala, was among the visitors to the city yesterday. He states that the Brick City is moving along at a very rapid rate and that there is now in course of construction a large number of handsome buildings that will cost from \$1,000 to \$12,000. Altogether the city is on a great building boom and is keeping up with all other sections of Florida, all of which seem particularly active.

#### Chamberlain's Liniment.

This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lamé back, lamé shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by all druggists.

#### A Prominent Visitor.

Dr. W. F. Blackman, president of Rollins' College at Winter Park, was among the prominent visitors to the city yesterday. While here he made a visit to the State University, where he delivered a short address to the student body and also took a drive over the city. Dr. Blackman expressed himself as delighted with Gainesville and states it is certainly growing at a very rapid rate.

## COMMENCEMENT EXERCISES AT UNIVERSITY

ARRANGEMENTS COMPLETED FOR CLOSING OF COLLEGE.

Tennis Championship Will Be Played at University Court During the Present Week.

Every afternoon this week, beginning at 2:30, tennis will be played on the University courts. Eight men have entered to compete for the championship in singles, and to the winner will be given the handsome cup so generously donated by Messrs. C. H. Coles & Son. As a result of the drawings for position the first round will be played between the following players: Wilson, F. T. vs. Wilson, R. N.; Price vs. Rader; Drane vs. Drawdy; Riley vs. Langston. In each case there will be five sets, if necessary. The losers will drop out after every contest, until only the best player is left. The handsome cup of the winner is on exhibition at the store of Messrs. Coles & Son. The public is cordially invited to attend the games. As the courts are in good condition and some of the players have developed great skill, the games will be well worth seeing.

Arrangements for the commencement exercises have practically been made. The dancing set of the University are looking forward with great interest to the ball that ends the social life of the students. President H. L. Thompson has, through his various committees, planned for the evening of May 25th so well that the guests at the ball will probably long remember the charms and pleasure of the occasion.

There are, however, many more dancing men in Gainesville, and among the students than there are ladies who dance, and the students would like to suggest that if any of the good people of Gainesville are to have young ladies visit them in the near future they would be very much pleased to have the young ladies come during the commencement week. The young ladies would with out doubt find an added pleasure, if they visited Gainesville at that time, and the students would consider it a

## BRICK FOR PAVING NOW BEING PLACED

WORK WILL BE STARTED DURING PRESENT WEEK.

Contractor on This Project is Pushing Same and Will Rush the Work to Completion.

Five carloads of the vitrified brick for paving purposes have arrived and Tuesday a large force of men were engaged in hauling and placing the brick along the street to be paved.

The contractor is here and is rushing the work as fast as possible, and it will be only a matter of a short while before he will have his part of the work completed and ready to bid on other streets which are sure to follow this improvement.

Brick will continue to arrive every week until sufficient number have been received to complete the work, and even this small contract is hailed with delight by the citizens of Gainesville as it will prove a starter on what has long been needed.

East Main street from Union south will probably be the next that will be taken up, and along this line it is stated that every property owner with but two exceptions have signified their willingness to put down brick up to the Government building. E. Baird, one of the largest individual owners of real estate along this street, has signified his willingness not only to pave along East Main street, but wants to pave the south side of the square, and is ready and willing to stand his part of the expense for the improvement.

### Baseball at Evinston.

EVINSTON, Fla., May 4.—The Evinston and Micanopy baseball teams No. 2 crossed bats on the Evinston diamond Saturday, May 1st, the score being 5 to 4 in favor of Evinston. There was good playing on both sides as both teams were in good shape.

Wood and Prince managed the battery of Evinston team, while Thrasher and Geiger for the Micanopy team.

The Micanopy and McIntosh teams crossed bats on the Evinston diamond May 1. Both sides were tired out from the Evinston-Micanopy game, therefore were unable to do much playing on either side, the score being 17 to 11 in favor of Micanopy.

### Biliousness and Constipation.

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill-feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. "A State campaign for a sane Fourth of July.

"A movement to secure a woman physician in every public institution where there are women inmates.

"A campaign to secure the pine-woods of Ogle county as a State forest reserve.

"A campaign for the passage of the Eastern forest reserve bill, establishing a reserve in the Appalachians and White Mountains.

"An effort to secure women's dormitories at the University of Illinois."

A man who has an empty cup may rightly wish to have it filled, but the man with a full cup will do well to hold it firmly. In other words a man may rightly wish to become wealthy, but the man who has wealth needs to use it wisely and to learn the meaning of "enough."

The cause of church union, which has for its object the amalgamation of denominations into one or two strong united bodies, has received a setback through the decision of the Tennessee court relative to the disposal of the property of the Cumberland Presbyterian Church which a few years ago was merged into the Presbyterian Church. It is to be noted that the decision is the reverse of that given in other States where the same or similar question has arisen.

Senator Elihu Root, in his opening address to the members of the third annual meeting of the American Society of International Law, in Washington, recently, expressed the opinion that disputes involving the rights of nations can be settled with justice and equity far better through an international court of arbitration than through the fine hand of diplomacy. Senator Root made a strong plea for the recognition of a permanent international tribunal, composed of men whose judgment would be guided solely by judicial reasoning, justice and equity, and not by narrow and biased local or national prejudice.

The selection of President Taft of the famous North Shore of Massachusetts for his official summer home, this year, surprised no one who is familiar with the natural beauties and attractions of this peerless summer resort section of our country. Not only men and women of distinction in literature and society, sundry ambassadors, ministers and their families, but many illustrious Americans have made their summer homes upon the North Shore. Henry W. Longfellow, James Russell Lowell, Rev. Dr. Edward Everett Hale, Richard Henry Dana, Jr., and Daniel Webster have all found an abiding place in this loveliest of summer retreats, and Charles Sumner, visiting the Manchester neighborhood for the first time, pronounced it more beautiful than Biarritz, the summer home of Napoleon III.

The charge delivered to the grand jury by Judge Wills at the opening of the spring term of the Circuit Court was not only a specific, fair and impartial command, clearly defining the duty of each juror, individually and collectively, but was also an example of the fairness in which this distinguished jurist, and ruler in many instances in the destiny of the unfortunate who are brought before him, desired the affairs of this court to be conducted. Of all the distinguished jurists who have had the honor to sit upon the bench of an Alachua county court, it may be said with impunity that none has endeavored to be more impartial, which makes him one of the most popular among not only members of the bar, but the public. Always firm, though gentle, courteous and consistent, his position not only commands, but appeals to the respect of those connected with the court, who feel honored at the privilege to honor him.

## PROCLAMATION BY GOVERNOR.

Governor Albert W. Gilchrist has issued the following proclamation designating May 9th as Mother's Day in Florida:

"The attention of the people of the State of Florida is invited to the beautiful custom, inaugurated in many of the other States, of paying special tribute on at least one day in the year to the best friend of each and every one of us—our mothers.

"Therefore, I, Albert W. Gilchrist, Governor of the State of Florida, do hereby designate and proclaim Sunday, May 9, 1909, as 'Mother's Day' and recommend that it be observed as such in all homes and churches by the people of this State. Mother's Day should really be every day in the year.

"On this particular day it is recommended that the custom observed in other States be followed by each person wearing a white carnation, its whiteness standing for purity, its form for beauty, its fragrance for love, its wide field for charity, and its lasting quality for faithfulness—all being a true mother's virtues."

"In those portions of the State in which there are no carnations now in bloom, it is recommended that the white rose be used instead, the rose being universally recognized as the queen of all flowers. It also possesses the characteristics of the carnation.

"It is recommended that the various churches arrange a suitable program for Mother's Day, Sunday, May 9, 1909, and that each person pay some suitable special attention to his mother, if she is living, and to her memory, if she is dead.

"Done at Tallahassee, the Capital, this 1st day of May, A. D. 1909.

"ALBERT W. GILCHRIST,

"Governor of the State of Florida.

"By the Governor:

"H. CLAY CRAWFORD,

"Secretary of State."

## SOUND ARGUMENT.

The Times-Union "Short Talks" man submits figures and argument to show that the most economical course for Florida to pursue is to call a constitutional convention. He says:

"The total cost of advertising amendments to the State constitution since 1887, The Tallahassee Morning News says, has been \$43,110, and the other expenses attending the submission of the proposed amendments to the people would bring the total sum to about \$55,000. Of the different amendments offered to the voters since the adoption of the constitution, twenty-one have been adopted. Twenty-one patches in nineteen years is a pretty severe strain on the texture of the constitution—shows that it has not stood wear very well. The first amendment was adopted by popular vote in 1890, or four years after the constitution had been ratified at a general election. If a convention could be called that could produce a constitution warranted to give satisfaction to the people and their representatives for twenty, or even ten, years, there would be economy in it. As the years pass an increasing number of amendments will be offered at a cost of several thousand dollars at each biennial election. Obviously, a new constitution would be cheaper and more satisfactory."

The recent gambling in wheat by which one man through cornering the commodity made a good-sized fortune is additional evidence that laws should be enacted to effectually make such transactions impossible. The rapid rise in wheat prices was of no benefit to the farmer while it was a positive injury to the consumer who has had to pay more for flour and bread.

## NEW TREATY NEGOTIATIONS.

Announcement is made that at the State Department in Washington preparations are in progress for a complete readjustment of our trade relations with the nations of the world, to follow the enactment of the new tariff law.

In view of the introduction of the maximum, minimum policy into our tariff law, many treaties and arrangements covering trade relations will of necessity be abrogated and new ones must be negotiated. At present the United States has trade agreements with France, Germany, Italy, Spain, Portugal and Holland, and it will be necessary, on the enactment of the new law, to give notice to these governments that the present agreements must be terminated and new ones arranged. The agreement with France can be abrogated by either party at any time without notice, but those with Italy, Spain, Portugal and Holland require notice of one year from either government, and this notice will be served by this government immediately on the passage of the new tariff law.

The agreement with Germany is the one arranged by President Roosevelt on June 1st, 1907. Under this agreement it will be necessary for this government to give Germany six months' notice before another arrangement can be effected.

## FROM FLORIDA PAPERS.

The Prohibition Amendment—Had it occurred to you that possibly the whiskey men would knock out the proposed State prohibition amendment on the ground that all acts of the present Legislature are unconstitutional? The constitution provides that the Legislature shall consist of but 100 members and the present body consists of 101, by reason of the Legislature of 1907 failing to make a reapportionment as provided by the constitution.—Perry Herald.

The Negro and Disfranchisement—Senator Beard, with his disfranchisement amendment, is preparing an appalling "bunch of trouble" for the State of Florida.

Mr. Beard may be right in his contention that the fifteenth amendment to the constitution of the United States isn't worth the paper it is written on, but how much will it cost the State of Florida, alone and unassisted, to establish that fact?

The negro is practically disfranchised now. He has no voice in the election of any State officer, or member of Congress. He is rapidly being shut out in municipal elections through the medium of the white primary. He will never constitute a menace to white supremacy in Florida, or in any other State for that matter. Why should Florida assume the great task of testing an amendment to the Federal constitution?

The adoption of the Beard proposition would simply mean the mulcting of the State in large sums for attorney fees, court costs, etc., and would have no appreciable result.—Tampa Tribune.

Alachua Negro Brought Here on Charge of Handling "Corn."

Deputy Sheriff E. Marconny brought to this city Monday Sam Williams, a negro of Alachua who is charged with selling booze and who was arrested in that town and fined \$25 and costs.

The darkey has been suspected for some time but the officers have been unable to secure any evidence that would be sufficient for conviction until Saturday evening, when they were rewarded by catching him with the goods and in the very act of disposing of some of the liquid.

He was placed in jail and will be given a hearing at this term of court.
